

Polyurethane Applications

Rollers & Wheels

Pleiger Plastics Polyurethane Rollers & Wheels

- ✓ Pleiger Plastics offers a vast array of polyurethane compounds tailored for transport roller and wheel applications.
- ✓ Our molded rollers and load wheels handle the harshest service environments with great success.
- ✓ Plei-Tech polyurethane compounds have excellent bonding characteristics with steel, aluminum, stainless, and plastic composites.
- ✓ Pleiger has the ability to strip old worn material and resurface the wheel with new Plei-Tech urethane. This environmentally friendly application offers a great savings advantage to our clients.
- ✓ Plei-Tech 15 and Plei-Tech 95 provide the industry's highest load capacities.
- ✓ Plei-Tech 15 (Vulkollan®) offers this sort of outstanding performance for the most demanding applications.

Soft Touch® Transport Rollers

- ✓ Our Soft Touch® Transport rollers are recommended for applications where it is important not to mar or damage a surface, while still retaining excellent abrasion resistance.
